DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Hyun Jong Park on 1-06-05.

The application has been amended as follows:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figs. 1a, 1b, 1c, 2 & 3 has been labeled --Prior Art-- because only that which is old is illustrated. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The changes have been made to indicate the illustrated drawings in figures 1-3 are prior art figures.

Allowable Subject Matter

2. Claims 1-13 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach or suggest alone or in combination, the limitations: "at least one third electrode formed on or inside the organic material layer, for adjusting the injection of electrons or holes to the organic material layer from the first electrode, the second electrode, and the third electrode" as claimed in claim 1. It is for this reason in

Art Unit: 2821

combination with all the other limitations in the independent claim 1, that claims 1-13 are allowable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kobayashi (US Pub. 2002/0033664); Imai (US 6,836,067); Fukunaga (US 6,559,594); and Hirano (US 6,084,579); also teach similar inventive subject matter. However the prior art listed above neither teach nor disclose the limitation described above for reason of allowance either alone or in combination.
